PLANT AND SOIL

Contents Volume 286 Nos. 1–2 August 2006

Commentary

The mysterious root length
P. Ryser **1–6**

Morphology and response of roots of pasture species to phosphorus and nitrogen nutrition
J.O. Hill, R.J. Simpson, A.D. Moore and D.F. Chapman **7–19**

Quantification and localization of bacteria in plant tissues using quantitative real-time PCR and online emission fingerprinting
S. Ruppel, J. Rühlmann and W. Merbach **21–35**

Fine root distribution of trees and understory in mature stands of maritime pine (*Pinus pinaster*) on dry and humid sites
M.R. Bakker, L. Augusto and D.L. Achat **37–51**

The quorum-sensing system in a plant bacterium *Mesorhizobium huakuii* affects growth rate and symbiotic nodulation
Y. Gao, Z. Zhong, K. Sun, H. Wang and J. Zhu **53–60**

A 3-year exposure to CO_2 and O_3 induced minor changes in soil N cycling in a meadow ecosystem
T. Kanerva, A. Palojärvi, K. Rämö, K. Ojanperä, M. Esala and S. Manninen **61–73**

Resident bacteria, nitric oxide emission and particle size modulate the effect of *Brassica napus* seed meal on disease incited by *Rhizoctonia solani* and *Pythium* spp
M.F. Cohen and M. Mazzola **75–86**

Estimating the relative nutrient uptake from different soil depths in *Quercus robur*, *Fagus sylvatica* and *Picea abies*
H. Göransson, H. Wallander, M. Ingerslev and U. Rosengren **87–97**

Modified micro suction cup/rhizobox approach for the in-situ detection of organic acids in rhizosphere soil solution
J. Dessureault-Rompré, B. Nowack, R. Schulin and J. Luster **99–107**

Using soil water depletion to measure spatial distribution of root activity in oil palm (*Elaeis guineensis* Jacq.) plantations
P.N. Nelson, M. Banabas, D.R. Scotter and M.J. Webb **109–121**

Spatial patchiness of litter, nutrients and macroinvertebrates during secondary succession in a Tropical Montane Cloud Forest in Mexico
S.N. Yankelevich, C. Fragoso, A.C. Newton, G. Russell and O.W. Heal **123–139**

Soil water depletion by *Eucalyptus* spp. integrated into dryland agricultural systems
N. Robinson, R.J. Harper and K.R.J. Smettem **141–151**

Feedbacks of soil inoculum of mycorrhizal fungi altered by N deposition on the growth of a native shrub and an invasive annual grass
C. Sigüenza, L. Corkidi and E.B. Allen **153–165**

Cultivation-dependent characterization of rhizobacterial communities from field grown Chinese cabbage *Brassica campestris* ssp *pekinensis* and screening of traits for potential plant growth promotion
S. Poonguzhali, M. Madhaiyan and T. Sa **167–180**

Defense proteins from *Vigna unguiculata* seed exudates: characterization and inhibitory activity against *Fusarium oxysporum*
T.L. Rose, A. da S. Conceição, J. Xavier-Filho, L.A. Okorokov, K.V.S. Fernandes, F. Marty, D. Marty-Mazars, A.O. Carvalho and V.M. Gomes **181–191**

Internal efficiency, nutrient uptake, and the relation to field water resources in rainfed lowland rice of northeast Thailand
K. Naklang, D. Harnpichitvitaya, S.T. Amarante, L.J. Wade and S.M. Haefele **193–208**

Interactions between plant growth promoting fungi and arbuscular mycorrhizal fungus *Glomus mosseae* and induction of systemic resistance to anthracnose disease in cucumber
W.A. Chandanie, M. Kubota and M. Hyakumachi **209–217**

Arsenic transformation by *Azospirillum brasilense* Sp245 in association with wheat (*Triticum aestivum* L.) roots
Y.V. Lyubun, A. Fritzsche, M.P. Chernyshova, E.G. Dudel and E.E. Fedorov **219–227**

Effects of cover cropping, solarization, and soil fumigation on nematode communities
K.-H. Wang, R. McSorley and N. Kokalis-Burelle **229–243**

Integrated pearl millet management in the Sahel: Effects of legume rotation and fallow management on productivity and *Striga hermonthica* infestation
O. Samaké, T.J. Stomph, M.J. Kropff and E.M.A. Smaling **245–257**

Impact of the invasive alien plant *Solidago gigantea* on primary productivity, plant nutrient content and soil mineral nutrient concentrations
S. Vanderhoeven, N. Dassonville, L. Chapuis-Lardy, M. Hayez and P. Meerts **259–268**

The complementarity of extractable and ester-bound lipids in a soil profile under pine
K.G.J. Nierop, B. Jansen, J.A. Hageman and J.M. Verstraten **269–285**

The vertical pattern of rooting and nutrient uptake at different altitudes of a south Ecuadorian montane forest
N. Soethe, J. Lehmann and C. Engels **287–299**

Soil N and C trace gas fluxes and microbial soil N turnover in a sessile oak (*Quercus petraea* (Matt.) Liebl.) forest in Hungary
P. Rosenkranz, N. Brüggemann, H. Papen, Z. Xu, L. Horváth and K. Butterbach-Bahl **301–322**

Soil patches of inorganic nitrogen in subtropical Brazilian plant communities with *Araucaria angustifolia*
M.L. Garbin, R.B. Zandavalli and L.R. Dillenburg **323–337**

Bradford reactive soil protein in Appalachian soils: distribution and response to incubation, extraction reagent and tannins
J.J. Halvorson and J.M. Gonzalez **339–356**

Extracellular proteomes of *Arabidopsis thaliana* and *Brassica napus* roots: analysis and comparison by MudPIT and LC-MS/MS
U. Basu, J.L. Francis, R.M. Whittal, J.L. Stephens, Y. Wang, O.R. Zaiane, R. Goebel, D.G. Muench, A.G. Good and G.J. Taylor **357–376**

Uptake of EDTA-complexed Pb, Cd and Fe by solution- and sand-cultured *Brassica juncea*
L.A. Schaider, D.R. Parker and D.L. Sedlak **377–391**
